

Feature:

- 1.Horizontal panel sliding table saw machine are also used by cutting sheets of aluminum, plastic and wood.
- 2.Provided with steel linear bearing post support arm travels with the carriage for maximum support and precise cuts.
- 3.Heavy frame anodized carriage assembly with precision bearings prevents cutting distortion.
- 4.Micrometer adjustable dual position rip fence allows fast and accurate set-up for any work piece.
- 5.Wood sliding panel saw machine with external scoring unit adjustments save set-up time.

Specification:

Overall Dimensions	3200x3150x900mm
Sliding Table Size	3800x375mm
Length of Cut	3100mm
Width of Cut Between Saw Blade and Rip Fence	1250mm
Height of Cut	80mm (45°Max 55mm)
Saw Blade Diameter	300mm
Scoring Blade Diameter	120mm
Main Saw Blade Speed	4000/6000rpm
Scoring Saw Blade Speed	7000rpm
Saw Spindle Diameter	30mm
Scoring Spindle Diameter	20mm
Main Motor	4.0kw or 5.5kw
Scoring Saw Motor	0.75kw
Main Saw Blade Titling Angle	45°~90°
Net/Gross Weight	900/950kgs
